

# VISION 21i

## VISION 21i BOWRIDER

The latest addition to the Camero family is the Vision 21i, a mid-sized, walk-thru bowrider designed to cross-over to all water sports. The Vision 21i has hull geometry similar to that of the Legend, providing faint, soft, clean ski wakes, while for the more serious wakeboarder, the optional electric ballast creates a good solid ramp.

Standard features include metallic or gelcoat striping, velour or vinyl interior, full instrumentation, full carpeted ski locker, tilt steering, driver's seat adjuster, stainless rear grab rail, walk thru door and bilge pump. Optional is the Vision 21i Pro-Rider which features hardcore digital Pro-Rider wakeboard graphics and custom gelcoat design.

Length 6.5 Metres

Beam 2.1 Metres

Seating 8

Weight 1600 kg (incl trailer)

Fuel 135 Litres
